

# 1-866-738-0706 Turkish Airlines Asheville Office

It doesn't appear that **Turkish Airlines has a dedicated city ticketing or sales office in Asheville, North Carolina** (e.g., like some airlines do in larger metro areas). There aren't any local "Turkish Airlines" business listings in Asheville beyond the commercial airlines at the regional airport. ([Turkish Airlines](#))

Here's how you can get support for Turkish Airlines travel while in or near Asheville:

## Turkish Airlines at the Airport

Turkish Airlines typically handles passenger services — such as **check-in, boarding support, baggage help, and flight information — at the airport counter on travel days**. At Asheville this would be handled through the ground handling partner for Turkish Airlines flights, as Turkish doesn't operate a full-service ticket office there. If you have an active flight, you should **visit the airline's counter at the airport** on the day of departure or arrival. ([Turkish Airlines](#))

While Asheville Regional Airport (AVL) doesn't show a direct Turkish Airlines ticket office listing, major airlines with counters there include:

- **United Airlines**
  - **American Airlines**
  - **JetBlue**
  - **Sun Country Airlines**
- (These are other carriers with service desks at AVL.)

## U.S. Customer Service Numbers

Since there's no local Asheville office, the best ways to contact Turkish Airlines while in Asheville are:

- **Turkish Airlines U.S. customer support (general reservations and help):**  
+1-800-874-8875 (U.S. toll-free) ([www.locationoffices.com](http://www.locationoffices.com))
- Other U.S. support lines listed include **+1-855-510-6547** (customer service) ([Tennessee Opportunity Zones](#))

These numbers can help with booking questions, changes/cancellations, refunds, flight status, baggage inquiries, and other travel support — and they are typically reachable from the U.S. 24/7. ([Turkish Airlines](#))

## Tips for Help While Traveling

- **Airport counters on your travel day** are often the quickest way to resolve ticketing or boarding issues if you're having trouble online or by phone. ([Turkish Airlines](#))

- For non-flight-day assistance (e.g., planning travel or changing an itinerary), calling the U.S. toll-free support number before you travel is usually best.  
([www.locationoffices.com](http://www.locationoffices.com))

If you tell me **your flight date or where you're flying to/from**, I can help point you to the **specific check-in counter location and best times to arrive at the airport** for Turkish Airlines flights!
